REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or reasonably suggest the combination of rate sensing and amplitude sensing for adjusting sensing parameters in a cardiac stimulation device. While both methods are taught separately, there is no suggestion to combine the two methods in the art. Kroll and Duncan et al. are examples of rate threshold devices that change sensing intervals based on detected rates.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey R. Jastrzab whose telephone number is (703) 308-2097. The examiner can normally be reached on Monday - Friday 5:30a.m. to 2:00p.m..
